Sept. 8, '17

Dear Woodie;

I received check from the Union Trust Co. I would have advised you about the new arrangement I have made but you were out of town.

I am still connected with Wrights but on the understanding that I am entirely free. So in the future I am going to bill all the work through my company. This will enable me to look after rush work when there is not the time to have it made in Boston.

Our fireproof paint is going fine. I am going to bring you some specimens in a few days to show you what it is. We have had an inquiry from the Postal Telegraph Co for the fireproof liquid for soaking the insulation used in cables.

Be sure to call me at this office in the future. Murry Hill 4318

Best Regards

FOREST
